9th April 2004

Dear Shaun

Members of the Parish Council have asked that I pass on their thanks to you for all the work you have done on the development of our new website.

You designed for us a very practical and localised website that we have already received many excellent comments about.

The site is easy to move around, speedy and clearly laid out. You have dealt with all our questions and queries in a friendly manner explaining the process in easy to understand terms.

Your recommendations with regard to software for managing the site has meant that we can now keep the site as up-to-date as possible. We've even been 'spidered' by Google

The Parish Council has no hesitation in recommending you and your company to other such organisations looking for a friendly and helpful IT organisation.

Yours sincerely

Maureen A Cummings
Parish Clerk & Responsible Financial Officer.
